CLIENT OPINION

We confirm that the ZAMER Spółka Komandytowa settled at Kraszewo 44, 11-100 Lidzbark Warmiński, is our supplier of devices for the waste incineration plants in the range of different welded steel constructions, tanks and air or flue gas ducting.

We are fully satisfied with hitherto cooperation. All works ordered by KEPPEL SEGHERS are done professionally and they are of high technical and organization level.

The manufacturing technology and production organization fulfill all requested standards which ensure high quality and punctual delivery of manufactured equipment.

Taking in consideration our long time cooperation with the foreign companies with a similar production profile, we regard ZAMER Spółka Komandytowa, with full conviction, as our honest and confidence worthy partner for further cooperation.

Best regards
